

CONSISTENT CLEANLINESS

Case Study

For more than 40 years, ServiceMaster by Round the Clock Cleaning has been providing the Greater Lehigh Valley area with consistent commercial cleaning services. Any industry, any size, our team is ready to roll up our sleeves and get to work.

PROBLEM

A local healthcare provider was struggling with their janitorial services. Their cleaning company was experiencing high turnover rates, resulting in overflowing trashcans and dirty office spaces. The problem became so prevalent they were worried they wouldn't be able to pass the mandatory JCAHO inspection.

SOLUTION

The healthcare provider decided to switch to ServiceMaster by Round the Clock Cleaning. We analyzed their facilities, designed a cost-effective cleaning plan, and assigned professionals to clean every day. Our team maintained frequent communication to ensure that needs and expectations were being met.

RESULT

The consistency of our team translated to a consistently clean environment. Our client's janitorial turnover is now reduced to near zero, and our janitorial plan has saved them time and money. Our client easily passed the JCAHO inspection and no longer receives cleaning complaints from employees.
