504-309-6488 | [www.synergybldgsolutions.com](http://www.synergybldgsolutions.com)  
3801 North Causeway Blvd., 302, Metairie, LA 70002

# WHAT WE OFFER

## SERVICES

**Installation & Service of Building Automation Systems**

**Consulting on Operation Efficiency of Building HVAC & Electrical Equipment**

## PRODUCTS

### **Field Devices**

This product provides the information and control points for each equipment controller.

### **Equipment Controller**

Alerton VLCs (Virtual Logic Controllers) are used to control and monitor HVAC equipment.

### **Main Building Controller**

The Alerton ACM (Ascent Control Module) can support multiple MSTP network trunks and can be set up to connect directly to a networked user workstation.

### **Workstation**

The workstation can be one computer connected to the ACM or it can be any computer capable of connecting to a designated IP address for the building automation system.

## BRANDS

Alerton | Honeywell | Siemens | Tridium

## INDUSTRIES

Education | Municipal | Hospitals | Multi-Site

# WHY CHOOSE US

Synergy is responsive to our clients' service needs. As a smaller company, we have the ability to offer a more personal relationship. Rather than an answering service, you will always have direct communication with an employee who can best serve your needs. We offer the customer service and personal touch of a small company with the expertise of a large corporation.

Building Solutions, LLC

## OUR HAPPY CUSTOMERS

“Working with Synergy makes all of my HVAC control service needs easy. I don’t call a service number and get an operator. I know I can always call the person I need directly, and they will do the best they can to solve my problem. They can usually do so on the spot or put me in touch with the person within their organization that can.”
